ELECTRONIC COMMUNICATIONS

Dear Shareholder,

Important information regarding communications with shareholders

We are writing to you to give you the opportunity to help Sterling Energy Plc ("Sterling" or the "Company") to reduce its environmental impact by opting to receive shareholder communications in electronic form and online.

The Company's articles of association allow the Company to make shareholder documents available via publication on the Company's website, rather than by sending hard copies by post. By making documents available electronically it allows shareholders to access documents on the day of publication as well as reducing the Company's production, printing and postage costs and lessening the Company's environmental impact through reduced printing and mailing activities.

In order to view the documents on the Company's website you will need access to a PC or Mac with appropriate web browser software. You will also need Adobe Acrobat Reader which can be downloaded, for free, from the Adobe website.

Yours faithfully,
